ABOUT ME

My name is Ali Al-qrinawi. I graduated from Al-Azhar University, in 2019, with an average of 91% . I have +3 years of experience in web development and I have worked in many companies.

EDUCATION

I ATTENDED AL-AZHAR UNIVERSITY

SOFTWARE AND DATABASES   **2017 - 2019**

I studied at Al-Azhar University for two years, majoring in software and data-bases, and we studied the design and programming of web pages, and we studied the work of Android applications and linking them to Firebase, and we also studied advanced databases, and I got a 91% average in college after I graduated from the university, and I was I am familiar with most program-ming disciplines and chose to work in developing websites.

PHP LARAVEL - JS - AJAX – JQUERY

TRAINING IN COMPANIES   **2019 - 2020**

 I learned php laravel in the first three months, and I trained myself at Fusion Plus for three months, and then I emptied myself to learn and practice js, jqure, and Ajax. My learning period was two months, then I trained on that for a month, and after that I was chosen to train I worked in the accrss line company for three months, and then I worked extensively in my field.

WEB DEVELOPER

OCEAN TEAM   **2-2020 – 7-2020**

I started working in the Future team in the month of February of the year 2020, and my task in the team was to create control panels for projects, and they must be composed of the client's project content, and powers, permis-sions, and notices are added to him, and that each panel is established and dependent on the (Ajax), (Jquery), (yajra table) and that the site load is fast even if the data in it is a lot and during that I learned how the team spirit is and how the team deals with each other and it was a nice experience.

WEB DEVELOPER

NEW SOLUTION COMPANY   **8-2021 – 1-2022**

I started working in a new solution company at the beginning of the month of 8 of the year 2021, and my task in the company was to analyze the projects, and then I would help a person to complete the control panel quickly and professionally, and then I would make the API to be delivered to the mobile programmer, and there was a spirit A team at work and it was fun working with them.

FREELANCER   Until now
